

About this Update

Done

Lock Screen

- Redesigned Lock Screen gives you all new ways to personalise your Lock Screen by showcasing favourite photos, customising font styles, displaying widgets and more
- Multiple Lock Screens can be created and you can easily switch between them
- Lock Screen gallery offers personalised suggestions along with Apple-curated collections for your Lock Screen
- Font and colour options for customising the look of the date and time on your Lock Screen
- Widgets on the Lock Screen display information at a glance like the weather, battery levels, upcoming calendar events and more
- A new effect places the subject of the photo in front of the time (iPhone XS and later)
- Photo styles change the colour filter, tinting and font style of photos on the Lock Screen to complement each other
- Notifications appear at the bottom of your Lock Screen and can be displayed in expanded list, stacked or count views

Focus

- Lock Screen linking connects your Lock Screen to a Focus, so you can activate a Focus by switching to the corresponding Lock Screen
- Focus filters hide distracting content in apps like Calendar, Mail, Messages, Safari and third-party apps
- Streamlined setup makes it easier and faster to get started with Focus, with personalised Lock Screen and Home Screen suggestions that include apps and widgets that are relevant to the Focus you're setting up

Messages

- Edit a message for up to 15 minutes after sending it. Recipients will see a record of edits
- Undo Send allows you to recall any message for up to 2 minutes after sending it
- Mark as Unread makes it easy to come back to a conversation later
- SharePlay in Messages lets you enjoy activities like watching movies, listening to music, playing games and more with friends while messaging
- Collaboration provides a simple way to invite others to collaborate on a file via Messages and get activity updates in the thread when someone makes an edit to a shared project

Mail

- Improved search delivers more accurate, complete results and provides suggestions as soon as you begin to type
- Undo Send allows you to cancel delivery of a message within 10 seconds of hitting send
- Scheduled send allows you to send an email on a specific day and time
- Follow-up shows sent emails that have not been replied to at the top of your inbox, so you can quickly follow up
- Remind Me lets you schedule a date and time to be reminded about an email

Safari and Passkeys

- Shared Tab Groups let you share a set of tabs with others and see the Tab Group update instantly as you work together
- Tab Group start pages can be customised with different background images and favourites for each Tab Group
- Pinned tabs in Tab Groups enable you to pin frequently visited websites for each Tab Group
- Safari web page translation adds translation for web pages in Turkish, Thai, Vietnamese, Polish, Indonesian and Dutch
- Passkeys offer support for an easier and safer sign-in method to replace passwords
- Passkey syncing through iCloud Keychain makes your passkeys available across all your Apple devices while keeping them end-to-end encrypted

Live Text

- Live Text video support allows you to interact with text in a paused video frame so you can copy, translate, look up, share and more (iPhone XS, iPhone XS Max and iPhone XR, or later)
- Quick actions let you take action on data detected in photos and videos with a single tap, so you can track flights or shipments, translate foreign languages, convert currencies and more (iPhone XS, iPhone XS Max and iPhone XR, or later)

Visual Look Up

- "Lift subject from background" isolates the subject of an image so you can copy and paste it into apps like Mail and Messages (iPhone XS, iPhone XS Max and iPhone XR, or later)
- Visual Look Up adds recognition of birds, insects, spiders and statues in your photos (iPhone XS, iPhone XS Max and iPhone XR, or later)

Siri

- Easy Shortcuts setup makes it possible to run shortcuts with Sid as soon as you download an app with no upfront setup (iPhone XS, iPhone XS Max and iPhone XR, or later)
- A new setting allows you to send messages without Sid asking you to confirm before sending
- "Hey Sid, what can I do here?" helps you discover Sid capabilities in iOS and apps just by asking (iPhone XS, iPhone XS Max and iPhone XR, or later)
- Call hang-up option for ending Phone and FaceTime calls with Sid by saying "Hey Sid, hang up". (iPhone XS, iPhone XS Max and iPhone XR, or later)

Dictation

- All-new Dictation experience supports using your voice and keyboard together to enter and edit text (iPhone XS, iPhone XS Max and iPhone XR, or later)
- Automatic punctuation inserts commas, full stops and question marks as you dictate
- Emoji support lets you insert emoji using your voice (iPhone XS, iPhone XS Max and iPhone XR, or later)

Maps

- Multi-stop routing supports adding up to fifteen stops along your driving route in Maps
- Travel cards in Maps let you see low balances and replenish your card when you add travel cards to Wallet, all without leaving Maps
- Public transport fares show you how much your journey will cost in the San Francisco Bay Area, London, New York and San Diego

Apple Pay and Wallet

- Apple Pay Order Tracking allows you to receive detailed receipt and order tracking information in Wallet for Apple Pay purchases with participating merchants

Home

- Redesigned Home app makes it easier to navigate, organise, view and control your smart home accessories
- Home tab now integrates all your accessories, rooms and scenes into a single tab for a whole-house view, allowing you to see your entire home at a glance
- Categories for lights, climate, security, speakers and TVs, and water let you quickly access all the relevant accessories organised by room, and display more detailed status information
- New camera view displays up to four cameras front and centre in the Home tab. Scroll to see any additional camera views in your home
- Redesigned accessory tiles feature more visually recognisable icons that are colour-matched to their category, and new behaviours for more precise accessory controls

Health

- Medications feature helps you track and manage your medications, vitamins and supplements by creating a list, custom schedules and reminders, and then viewing logging over time
- Cycle deviation notifications alert you if your logged menstrual cycles show a pattern of infrequent periods, irregular periods, prolonged periods or persistent spotting
- Invitations for Health Sharing allow loved ones to easily and securely share their health data with you
- Health Sharing reminders give you transparency and control over the health data you are sharing with loved ones

News

- My Sports enables you to easily follow your favourite teams and leagues, and watch highlights in the News app
- Favourites gives you easy access to the channels and topics you read the most, in a consistent place near the top of your Today feed
- New home pages deliver visually updated and easier-to-navigate topic feeds for local news locales, sports teams and leagues, and more

Family Sharing

- Improved child account setup makes it easier to create an account for a child with the right parental controls, including age-appropriate media restrictions
- Device setup for a child lets you use Quick Start to easily set up a new iOS or iPadOS device for your child with your selected parental controls in place
- Screen Time requests in Messages make it even easier to approve or decline requests from your child
- Family Checklist gives you tips and suggestions like updating a child's parental control settings, turning on location sharing, or just reminding you to share your iCloud+ subscription with everyone

Safety Check

- Safety Check is a new section in Settings to help people in domestic or intimate partner violence situations quickly reset the access they've granted to others
- Emergency Reset lets you quickly take action to reset access across all people and apps, including disabling location sharing via Find My, resetting privacy permissions for apps and more
- "Manage sharing and access" helps you review and customise which apps and people can access your information

Accessibility

- Door detection in Magnifier locates a door, reads signs and symbols around it, and gives you instructions for how to open the door (iPhone 12 Pro and iPhone 13 Pro)
- Apple Watch mirroring provides full control of Apple Watch from iPhone and supports use of Switch Control, Voice Control or any other assistive features on iPhone to get the most out of your Apple Watch
- Buddy Controller helps users with cognitive disabilities get support from a carer or friend while playing a game by combining inputs from multiple game controllers into one
- VoiceOver is now available in over 20 new languages and locales, including Bangle (India), Bulgarian, Catalan, Ukrainian and Vietnamese

This release also includes other features and improvements:

- Fitness app lets you track and meet your fitness goals even if you don't yet have an Apple Watch, using iPhone motion sensors to give you an estimate of your calories to contribute to your daily Move goal
- AirPods Pro (2nd generation) support
- Personalised Spatial Audio uses the TrueDepth camera on iPhone to create a personal profile for Spatial Audio that delivers a more precise and immersive listening experience on AirPods (3rd generation), AirPods Pro (1st and 2nd generation) and AirPods Max
- Handoff in FaceTime allows you to move FaceTime calls seamlessly from your iPhone to your iPad or Mac, and vice versa
- Memoji updates include more sticker poses, hairstyles, headgear, noses and lip colours
- Quick Note adds support for taking a note in any app on your iPhone and adding links to create context and easily find content
- Duplicate detection in Photos identifies duplicate photos so you can quickly clean up your library
- Foreground blur for portrait photos in Camera blurs objects in the foreground for a more realistic-looking depth-of-field effect (iPhone 13, iPhone 13 Pro and iPhone 13 Pro Max)
- Pinned lists in Reminders help you quickly navigate to your favourite lists
- Search on the Home Screen enables Spotlight to be accessed directly from the bottom of the Home Screen, making it easy to open apps, find contacts or get information from the web
- Automatically send messages in CarPlay to skip the confirmation step when sending messages
- Rapid Security Response gets important security improvements to your devices even faster, as they can be applied automatically between standard software updates

This release includes even more features and improvements. For more information, please visit this website:

Some features may not be available in all regions or on all iPhone models. For information on the security content of Apple software updates, please visit this website:
