ANDREW PAGLINAWAN

Born 04/10/1982

Personal Statement

I have been using computers for almost 10 years and I have gained an excellent knowledge in areas of design, computers and the internet. I am very passionate about the industry I am involved with and love the idea of constant learning and having fun at the same time.

I see one of my major strengths being my adaptability. I am able to jump easily from being a designer, to a coder, to software and hardware technician, to decision maker. This adaptability can also be seen in my design work where I am able to handle any task I'm given, be it web, multimedia, branding or print.
