Partition

RAID

Restore

To use First Aid, select the volume and click a repair button.

- You can verify or repair any volume format supported by Mac OS X.
- First Aid cannot repair a write-protected disk, a CD-ROM, or a disk with open files. To repair or verify the startup disk, boot from the Mac OS X Install CD and select Disk Utility from the Installer Menu.
- You may only repair permissions on a volume with Mac OS X installed.
- If Disk Utility cannot make repairs, try other disk repair programs or back up your data and erase the volume.

Repairing permissions for "System 120 GB"

Determining correct file permissions.

We are using special permissions for the file or directory `./System/Library/Filesystems/cd9660.fs/cd9660.util`. New permissions are 33261
The privileges have been verified or repaired on the selected volume
